WHAT IT IS

A skin retexturizer that joins the benefits of enzymes that gently break down dead skin from the pores with a skin brightening complex that reduces the appearance of dark spots. What more can you ask for? This skin booster also packs a powerful punch by combining the advanced anti-oxidant power of the Acai berry and the soothing properties of Canadian Willowherb.

POINTS OF DIFFERENCE

Faith Skincare uses enzyme exfoliants to soften the skin for extractions, as opposed to acid exfoliatants that harden the skin and close the pores. The skin lightening properties are derived from herbal extracts that give the skin a healthy glow.

INGREDIENT FEATURES AND BENEFITS

Pumpkin Seed Powder: High in Zinc, Vitamin A, and enzymes, Pumpkin Seed Powder contains enzymes which lightly exfoliate the skin

Acai Puree: A berry found in the Amazon Rain Forest that contains more antioxidant, anthocyanins than red wine or blueberries.

Kakadu Plum Extract: Traditionally used as an antiseptic and soothing balm in Australia, this ingredient contains highly stabilized vitamin C.

Yellow Dock Extract: An herbal remedy that inhibits melanin production, the primary determinant of skin pigmentation.

Hyaluronic Acid: The key water maintaining substance in the skin, HA holds 100x's its weight in water. Environmental pollution and aging decrease this ingredient in our skin, but studies show that HA applied topically promotes circulation and helps the skin absorb nutrients.

WHAT YOU WON'T FIND ON THIS LABEL

Faith Skincare is dedicated to promoting a holistic lifestyle, therefore our products are formulated without the use of parabens, sulfates, carcinogens, and synthetic fragrances.
