Hi everyone,

I just joined up and wanted to say hi.

Hi Pete- Welcome. Are you an acne sufferer and do you have any questions about your skin for our estheticians?

It's a fact- curing acne can never be achieved by tackling one of the many factors responsible for acne. If you've ever tried to cure your acne using one-dimensional treatments like antibiotics or even detox diets and failed it's probably because you tackled only one aspect of the disease. Not only will this system teach you the only way to prevent your acne from being formed, you will also learn the only way to acne treatments- the holistic way.
